CHICAGO'S **FACES** of DESIGN

EVA QUATEMAN

Small but mighty is an apt description of both Eva Quateman and her namesake firm, Eva Quateman Interiors. She has an unmatched eye for detail, and it's the little things, according to Quateman, that make the biggest difference in a space. Her firm is a family-run business that works side by side with her husband's construction company, Q Construction, so that "every little detail is addressed from the beginning, which creates a seamless end product," she explains. She has been a fashionable force on Chicago's design scene for more than 24 years, and what is most impressive is her boundless energy and ability to stay at the top of her game—in regard to interiors, and signature furniture. Many of her interiors are primarily furnished with custom designs, and she has a collection with deAurora, Eva Quateman Essentials, that expresses the impeccably timeless side of her taste. Her sophisticated style can be found in distinctive homes coast to coast and everywhere in between.
